## INSTALLATION HI-JINX

✣ President **John Christman** and his 2022-23 board and committee chairs wrapped up a busy, productive Rotary year last Tuesday, June 27, at the Annual Installation Dinner held at Mill Valley's venerable Outdoor Art Club.

As *Mill Wheel* readers know, we usually use this opportunity to share a ton of photos taken at the event, and this year will be no different, thanks to **Nancy McKlveen**, **Ed Marshall** and **Kent Campbell** and their smart phones.

But, at the same time, we want to share some thoughts expressed by incoming club president **Kim Jessup** whose theme for 2023-24 will be *Community, Connection and Teamwork.*

"My goal this year is to connect with each other and our community, and to increase our involvement in service projects," she said. The new president challenged her audience to "dare to make a difference" by working together to 1) Better Connect; 2) Do More Community Service Projects; 3) Grow our Membership; 4) To Make the Best of Our Fundraisers, and 5) To Develop long Range Projects.

Welcome aboard, President Kim. Thanks, President John!

**The Four-Way Test of the things we think, say or do**

- **Is it the TRUTH?**
- **Is it FAIR to all concerned?**
- **Will it build GOODWILL and BETTER FRIENDSHIPS?**
- **Will it be BENEFICIAL to all concerned?**

## NEXT MEETING: *Shape of the Universe Today & Tomorrow*

**July 18:** UC Berkeley physics student and Tam High graduate **Ari Katz** will present *The Shape of The Universe Today, and Tomorrow.* While physics is one of the most successful sciences, cosmological physics presents a literal edge to our cosmic understanding. Questions like "What's the shape of the universe?," while frustrating to those familiar only with easily computable answers, allow us to be strategic with limited information and grant us an important life skill: to be at peace treading into the unknown without a map in hand.
