## NEXT MEETING: “THE INFORMATION TRADE: HOW BIG TECH CHALLENGES THE NATION STATE”

► March 16: Technology expert Alexis Wichowski will present *The Information Trade: How Big Tech Challenges the Nation State*. In this provocative presentation about our new tech-based reality, Alexis Wichowski considers the unchecked rise of tech giants like

Facebook, Google, Amazon, Apple, Microsoft, and Tesla—what she calls “net states”— and their unavoidable influence in our lives. Rivaling nation states in power and capital, today’s net states are reaching into our physical world, inserting digital services into our lived environments in ways both unseen and, at times, unknown to us. They are transforming the way the world works, putting our rights up for grabs, from personal privacy to national security.
